EDUCATION

Bachelor of Computer Application (BCA)

2024

New Arts Commerce and Science College, Parner – 8.65 SGPA

Higher Secondary (HSC)

2021

New English School, Parner - 85%

SKILLS

Front-End (HTML, CSS, Bootstrap, JavaScript, ReactJS), Back-End (Core Java, Java EE, Spring Framework, Spring Boot), MySQL, Eclipse IDE, Git & GitHub, Agile Development
Soft skills (Good Communication, Strong teamwork, Adaptability, Motivation, Passion)

PROJECTS

Project Title: To-Do Application	Link	2024
Developed a web application for managing daily tasks, enabling users to add, remove, and mark tasks as complete.		
Key Achievements: - Optimized data flow, decreasing error rates by 30%, and boosting application stability and user satisfaction. - Implemented advanced state management techniques, reducing app load times by 40% and increasing user retention rates by 20% over six months.		
Project Title: Clone of IPL website	Link	2024
Built a functional and responsive replica of the official IPL website, showcasing full-stack development skills.		
Key Achievements: Developed a highly responsive and functional IPL website clone, showcasing expertise in full-stack development; optimized performance metrics, resulting in a 50% faster load time and 90% user retention rate.		
Project Title: To-Do Application	Link	2024
Developed a comprehensive Book Store Management System using Spring Boot, Thymeleaf, and MySQL		
Key Achievements: Enhanced user experience with seamless interface, ensured data integrity with a robust MySQL schema, improved operational efficiency through automation, and implemented continuous integration for streamlined deployment.		

INTEREST

- Open-Source Contribution: I'm passionate about contributing to the developer community by participating in open-source projects
- Technical Learning: I enjoy staying up-to-date with the latest advancements in software development through online courses, tutorials, and hackathons.
- Data Structures & Algorithms: I'm fascinated by the efficiency and elegance of data structures and algorithms, and I enjoy applying them to solve coding challenges
- Building Side Projects: I'm enthusiastic about building personal projects to experiment with new technologies and enhance my development skills.
